Transfer Bridge Things To Bring

UC Davis Student ID Card: You should have been issued an ID card at Transfer Orientation. Be sure to bring it!

Clothes for two weeks: Davis weather in September is generally quite hot (90 – 100+ degrees). Dress accordingly but also appropriately. Remember a component of this program is professional development and therefore students should dress to reflect this theme (for example, super short shorts and tight tank tops would not be recommended). Bring casual but nice clothes as well as a jacket or sweater in case it cools off in the evening. Also bring detergent (or plan to purchase locally) to use in the card-operated washers and dryers.

Nice outfit: We will have three banquets during the program; therefore it would be advisable to bring at least one outfit that is fitting for a nice dinner. Not all rooms will have clothes hangers; best to bring some for the closet.

Swimwear: The campus Recreation Pool is free and available to students, so bring a bathing suit and pool towel - plus sunblock, shades and a hat!

Personal Items: Bring your toiletries. Don’t forget to bring medication that you need to take regularly. It is also a good idea to bring shower shoes / flip flops for the shower.

Sports Equipment: We will have some time for sports activities so feel free to bring athletic wear and your own baseball gloves, soccer ball, tennis racket, hula hoops, etc.

Bike: You may bring a bike to get around the large campus, though it is not required. Bikes can also be rented (see FAQ section). If you do bring a bike we encourage you to license it and be sure to bring a helmet plus a cable and U-lock for security.

Electronics: Most students rely on cell phones for communication. However, we request that students do not use them during workshops and sessions. Bring an alarm clock as well, if you don’t use your phone for this purpose.

Laptop: Student will be required to complete group projects and will need computers to do their work. Please contact btroberts@ucdavis.edu if you need assistance borrowing a laptop.

School Equipment: Bring paper/notebook, pencils/pens, laptop, calculator and/or other items that you use for schoolwork. Computer lab access is limited during summer; please see above if you do not have a laptop.

We look forward to hosting you for Transfer Bridge! If you have any questions prior to arrival, contact Transfer Bridge Program Coordinator Breidi Truscott Roberts at: btroberts@ucdavis.edu or 530.752.8550.
